<i>Stuart Little</i>	E. B. White
<i>Too Small Tola</i>	Antinuke
<i>Wayside School is Falling Down</i>	Louis Sachar
<i>Wild Born</i>	Brandon Mull

Master basic addition and subtraction facts **with** regrouping to the hundreds place. Understand place value to the hundreds place. Practice telling time to the minute and using money (bills and coins). Begin memorizing multiplication facts (2s, 3s, 4s, and 5s) You can try using flash cards to help you remember!

Ask questions! Pay attention to what's happening around you and try to figure it out! Good scientists ask questions :) They also make mistakes! So, if you don't get it right the first time, do some research and try to find the answer! Ask people who know more than you, too! It always helps to work with a team!

HAVE FUN! Remember that God is always with you! Keep strong in your faith by praying, attending Mass, and doing your best to serve others in need.
