Go to well known geologic phenomena locations such as volcanoes and archeological digs. Wear your sunscreen! Also, make a science journal for any and all animal kingdom sightings. (That means mammals, reptiles, amphibians, fish, birds, insects, etc. Don't forget shellfish if you go to the beach.) Make sure you include the creature's location. A sketch of the creature would be awesome, too.</p>
Social Studies	<p>When selecting books for summer reading, try some nonfiction history books. They are extremely interesting and exciting. We promise, and dare you to try one. You will be hooked! Start with your favorite time period and then branch out.</p>
Religion	<p>Go to Mass every Sunday. It's really fun to find a nearby Catholic church while you are on vacation and go to Mass there. Look for Cathedrals! Oh, and don't forget about the 10 Commandments, the Beatitudes, the Spiritual and Corporal Works of Mercy, and the Confessional. God doesn't take a vacation!</p>

Have the most wonderful summer! Can't wait to see you in 5th grade!
